

Body Ceutics™ - Transdermal Supplements

Based on transdermal technology, Body Ceutics™ were developed to provide spa/clinical quality body care and therapeutic results all in one. Originally created for the wholesale spa and holistic health care industries, Body Ceutics™ are now available to the public for use in the comfort of your own home.

The Idea...

Research shows that up to 60% of what is put onto the skin is absorbed into the bloodstream. If so, why not replace harmful, toxic ingredients with beneficial ingredients and allow those to enter the body via the skin to help heal and enhance the health of individuals while beautifying the skin and soothing the soul.

The Science...

To be therapeutic; Body Ceutics™ consist of therapy specific blends of herbal extracts which utilize the skin as their primary form of therapeutic delivery. Delivering therapeutic ingredients into the body via the skin is nothing new. Many pharmaceutical medicines on the market today are delivered via a transdermal patch and also in the form of creams and salves. Transdermal formulas decrease the chance for first pass elimination, side effects and drug interactions and are easier to administer than oral dietary supplements. We've utilized this transdermal technology and incorporated it into a holistic, dietary supplement system.

The Beauty...

Imagine walking into a spa or holistic health care center and having a transdermal patch applied to your back and that was it... your service or treatment was over. Doesn't sound so relaxing or healing right? Now imagine receiving a full body scrub, then a body wrap, followed by a full body massage all the while breathing in a wonderful aromatherapy scent and being treated for such ailments like arthritis, psoriasis, anxiety, depression or varicose veins. This is the beauty behind the science. Body Ceutics™ has customized each therapeutic line for a spa like experience. Giving both spas and holistic health care centers more power in treating such ailments. And now with Body Ceutics™ available to the public, everyone can have these soothing spa like experiences, beautiful skin and therapeutic results in the comfort of their own home.

The Lines...

Thirteen different therapeutic lines, totaling 44, results driven body scrubs, body masques, hydrotherapy soaks, serums, massage oils and aromatherapy sprays consisting of up to 15% herbal extracts, 22% pure vegetable oils, 2% essential oils and nutraceuticals. Over 90 different certified organic and wild harvested herbal extracts such as: Ginkgo, Ginseng, Echinacea, St. John's Wort, Peppermint, Lavender, Chamomile, Burdock, Green Tea and Licorice make up our unique transdermal body care formulas. Every product is 98-100% natural and delivers active phytochemicals

to the skin and body resulting in healthy, glowing beauty that is beyond skin deep. Besides home care, Body Ceutics™ are used in integrative health clinics, massage therapy practices, naturopathic offices, day spas and resorts, by personal trainers and aestheticians.
