

Your Drug Store Alternative!

By Regina Di Silvestro

Normally when you think of body scrubs, lotions, hydrotherapy soaks, masques and massage oils you think of them to beautify yourself. What if these products were able to provide hormone balance, immune improvement, tension relief and more? RD Alchemy Natural Products line of Body Ceutics™ therapy-specific transdermal dietary supplements does just that. They are designed specifically to meet all your health and wellness needs while beautifying the skin and soothing the soul.

What makes RD Alchemy products so special? Their therapy specific formulas deliver the therapy needed through a unique process, known as transdermal therapy. Transdermal formulas are praised for their ability to deliver a specific amount of medication through the skin, directly into the bloodstream. Originally created for spas and holistic health care industries, Body Ceutics™ are now available to the public for use in the comfort of their own home. The inspiration for this line began with research that shows up to 60 percent of what is put onto the skin is absorbed into the bloodstream. RD Alchemy wanted to replace harmful, toxic ingredients with beneficial ingredients that can enter the body through the skin and will help heal and enhance the health of individuals from the outside in.

Educated in chemistry, pharmacology and toxicology, I wanted to develop a product that offered an herbal alternative to many of the products encountered on the drug store shelves. My years spent in natural product chemistry, drug development research for cancer, inflammation and metabolic disorders combined with my herbalist certification and experience added to my desire to provide safe and effective wellness and health products. Looking at the body as a whole, instead of piece-by-piece, RD Alchemy is able to offer an extensive line of products that will leave you feeling refreshed and healthy in addition to looking great.

Although not a "new" idea, I began using medicinal compounds found in plants to create organic, 98-100% natural products. This is a process that dates back many years and is currently used by as much as 80 percent of the world's population to treat illness. To ensure quality, the herbs used in RD Alchemy natural products go through a 23-point analytical testing procedure and are certified organic or wild harvested. Our paraben free, fragrance free and petroleum free products also are not tested on animals. Our number one priority is to provide customers with products that are safe to use and deliver the results we promise.

When I started RD Alchemy, I began by providing oral extracts to health practitioners that would work in sync with massage therapy to help relieve symptoms and pains associated with high blood pressure, cancer, arthritis and more. As I became more involved in providing products to health and wellness centers, I discovered an unfilled need to provide topical extracts that would benefit people in the same way oral extracts do. From there, I set out to create a line of 98 to 100 percent natural products that would possess transdermal properties, allowing herbal extract blends, essential oils, vegetable oils, vitamins and minerals to their natural work, leaving you with healthy wellness care for the body and mind.

The science behind Body Ceutics™, begins with therapy specific blends of herbal extracts, which utilize the skin as their primary form of therapeutic delivery. These therapy specific formulas use up to 15% herbal extract blends, 2% essential oils, 22% vegetable oils and other nutraceuticals to provide maximum therapeutic effectiveness while also nurturing the skin and soothing the soul.

Whether it be migraines, menopause, arthritis, cellulite, varicose veins, colds & flu, stress, anxiety, detoxification and more; with 13 different therapeutic lines, totaling 44 results-driven, body scrubs, body masques, hydrotherapy soaks, treatment serums, massage oils and aromatherapy sprays one is surely able to find a product to help with whatever it is you might suffer from. Find out more by visiting us online at: www.rdalchemistry.com. We think you'll be pleased to find a drug store alternative for your everyday health care needs.
